

UK-Track Medical Degree Program

Earn your medical degree in **5.5 YEARS** with American University of the Caribbean (AUC) in partnership with the University of Central Lancashire (UCLan)

ABOUT UNDERGRADUATE ENTRY INTO AUC'S MEDICAL DEGREE PROGRAM FOR NON-US STUDENTS

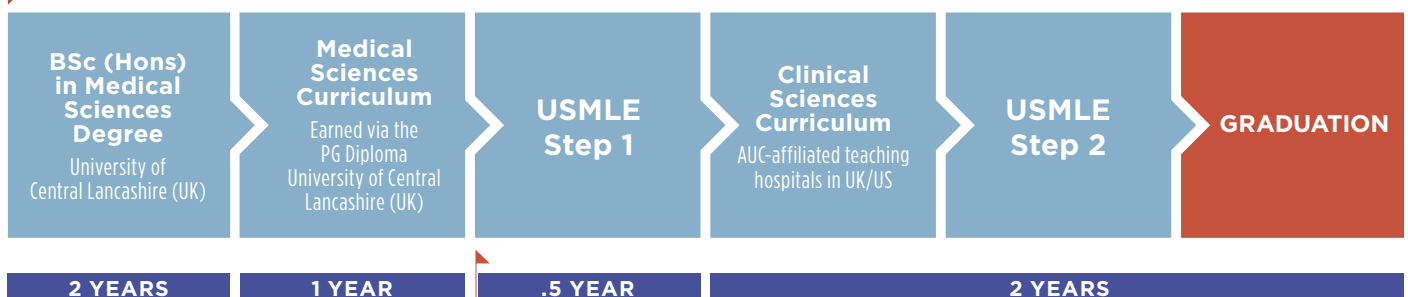

AUC offers an innovative and exciting pathway to a medical degree through a partnership with the University of Central Lancashire (UCLan). This degree track is open to qualified non-US citizen students who do not yet hold a Bachelor's degree who seek an accelerated pathway to completing their medical education.

Students begin by earning a BSc (Hons) Medical Sciences, which is an accelerated two-year program offered by UCLan in Burnley, UK that provides a unique opportunity to gain a scientific degree which is embedded within a clinically-focused curriculum. Students will learn how the systems of the body work together to maintain normal function in health, and how pathological processes disrupt these systems. The BSc (Hons) Medical Sciences has been recognized by AUC and its accreditor, the Accreditation Commission on Colleges of Medicine, as granting equivalent credit for the first two semesters of AUC's five-semester medical sciences curriculum.

Students who successfully complete the BSc (Hons) Medical Sciences degree at 2.1 or above have the option then to remain in the UK or move to Sint Maarten to complete the remainder of the medical sciences portion of the medical degree program, beginning with AUC's third semester. Students who remain in the UK will have the opportunity to earn a Post Graduate Diploma in International Medical Sciences from UCLan, which AUC and its accreditor recognize as equivalent to the AUC medical sciences curriculum. This is an added benefit built in to this innovative and accelerated track.

Following completion of the medical sciences curriculum, students must take and pass United States Medical Licensing Examination® (USMLE) Step 1, which is required for progression to the clinical sciences portion of the medical degree program. During the final two years of the medical degree program, students complete clinical clerkship rotations in the wide network of AUC-affiliated teaching hospitals.

Entry point for **5.5 Year MD Program**

Earn a **Post Graduate Diploma in International Medical Sciences** upon successful completion of BSc (Hons) Medical Sciences degree from UCLan and Medical Sciences curriculum from AUC

Consider this Accelerated Path to your Medical Degree

UCLan Excellence

In 2018/19 The Centre for World University Rankings placed the University of Central Lancashire in the top 3.7 percent of all worldwide universities.* UCLan is a truly global institution with a diverse student body, supportive staff community, and international reputation for research and health education.

*(CWUR 2018/19)

AUC's Record of Success

AUC has provided medical education for over 40 years and has over 6,900 graduates from over 73 countries.

Student Achievement

AUC's curriculum is designed to prepare students to succeed on all parts of the USMLE. USMLE Step 1 is one of the most important factors that leaders of postgraduate residency training programs consider when evaluating applicants. AUC students' five-year cumulative first-time pass rate for USMLE Step 1 is 93.7 percent for period, 2013-2017.

Quality Clinical Training

AUC medical students have the opportunity to begin their studies in the UK but develop their medical and clinical skills at hospitals and health systems around the world.

Graduate Success

Any medical school should be evaluated by the career opportunities secured by its graduates. After medical school, most AUC graduates seek a residency position in the United States. In 2019, 90 percent of AUC graduates applying for residency positions in their first year of eligibility secured a position.

Scholarships

AUC is committed to helping committed and capable students relieve the financial burden of medical school. We offer a scholarship specifically for international (non-US) students.

Accredited Medical Degree Program

AUC is accredited by the Accreditation Commission on Colleges of Medicine (ACCM), which is the accreditor used by the country of Sint Maarten. The United States Department of Education, via the National Committee on Foreign Medical Education and Accreditation (NCFMEA), reviews the standards that countries use to accredit medical schools. The NCFMEA has determined that the ACCM's accreditation standards are comparable to those set by the Liaison Committee on Medical Education (LCME), which accredits medical education programs in the United States.

Program Entry & Admissions Requirements

Entry into University of Central Lancashire BSc (Hons) Medical Sciences degree program

About Us

American University of the Caribbean School of Medicine (AUC), founded in 1978, has more than 6,900 graduates and is a major contributor of physicians to the United States healthcare system. AUC offers a US-style curriculum designed to prepare graduates to be competitive for placement in postgraduate medical education programs. AUC is distinguished by providing students with international learning experiences, fostering a diverse learning environment, and encouraging and nurturing the commitment to community engagement and social accountability that we believe all physicians should practice and embody.

The University of Central Lancashire (UCLan) in Preston, founded in 1828 as the Institution for the Diffusion of Knowledge, is now one of the UK's largest universities with a staff and student community approaching 38,000 and an employment-focused course portfolio containing over 350 undergraduate programs and nearly 250 postgraduate courses. The University has an established research reputation with world-leading or internationally excellent work taking place within the areas of Business, Health, Humanities and Science. As a truly global institution, UCLan's student body includes 120 nationalities and its partnership network extends to 125 countries.
