# AFFILIATED CLINICAL SITES & HOSPITALS

A strong network of US and UK hospital teaching sites

**We believe if we build a better model of medical education, we can build a better model of healthcare in the world. Through our affiliated medical schools, we are united in improving access, diversity and outcomes for deserving, dedicated talent.**

AUC School of Medicine is committed to preparing students who will be culturally competent physician leaders and globally aware citizens. We offer an integrated medical education program rooted in immersive global health experiences. Our clinical curriculum is comprised of 80 weeks of clinical rotations that include 42 weeks of core clerkships and 38 weeks of electives. Core clerkships are completed at affiliated clinical sites in the United States and/or United Kingdom.

Each clinical site is staffed by a program director, faculty members and a medical education coordinator who work together to facilitate the learning experience for AUC students. Additionally, AUC's Office of Undergraduate Medical Education Student Services is available to assist students at any point during their clinical rotations.

## Clinical Rotations in the UK

“

*'I was able to talk about the differences in medical systems, the benefits of those different systems and what I learned, and I think it really helped me.' "But [rotating in the U.K.] isn't just something good to talk about on interviews—I think it also makes you more adaptable and prepared for residency in general."*

**JULIE VAN BAARDWIJK, MD**  
AUC Class of 2020

### Affiliated US Hospitals

- Ascension Providence Hospital, Southfield, MI
- Ascension Providence Hospital, Rochester Hills, MI
- Baton Rouge Medical Center, Baton Rouge, LA
- Behavioral Health, Shreveport, LA
- Bronxcare Health System, Bronx, NY
- Brooklyn Hospital Center, Brooklyn, NY
- Center For Haitian Studies, Miami, FL
- Flushing Hospital Medical Center, Queens, NY
- Kern Medical Center, Bakersfield, CA
- Mount Sinai Hospital, Chicago, IL
- Nassau Health Care Corporation, East Meadow, NY
- Spring Grove Hospital Center, Catonsville, MD
- St. Agnes Hospital, Baltimore, MD
- St. John's Episcopal Hospital, Queens, NY
- St. Mary's Hospital, Waterbury, CT
- Washington Adventist Hospital, Takoma Park, MD
- Western Connecticut Health Network, Danbury, CT

### Affiliated UK Hospitals

- Epsom General Hospital, Surrey
- Queen's Hospital, Romford, Essex
- St. Richard's Hospital, Chichester, West Sussex
- Stepping Hill Hospital, Stockport, Greater Manchester
- Wexham Park Hospital, Slough, Berkshire
- Worthing District Hospital, Worthing, West Sussex

## GLOBAL ELECTIVES

The Global Health elective is a 6-week immersive clerkship that sends medical students and residents to clinical teaching sites around the world. The program was established to facilitate a deeper understanding of healthcare and to provide improved patient care through the exchange of practices and ideas.

Through our clinical affiliation with the Medical Education & Global Health program at Danbury Hospital in the US, AUC School of Medicine students have

the opportunity to complete the six-week clinical rotation in one of five countries: Vietnam, Russia, the Dominican Republic, Uganda, or Zimbabwe, with each site offering the unique ability to access different medical systems, environments, patient populations, and health practices. Students gain significant hands-on training and exposure to entirely different healthcare systems. These are good experiences to put on a CV and strong talking points during a residency interview.

“

Each year, dozens of AUC students take advantage of the opportunity to experience the practice of medicine abroad. Not only do these experiences stand out on residency applications, global health training has a lasting impact on the professional growth and development of healthcare professionals in training.”
