

AUC SCHOOL OF MEDICINE FACT SHEET

For more than 40 years, AUC School of Medicine has been fulfilling its mission to train globally minded, community driven physicians who specialize in providing expert, collaborative care. Tomorrow's physicians will care for an increasingly diverse patient population. That's why we offer an integrated medical education program, designed to develop an in-depth understanding of different healthcare systems and patient populations rooted in immersive global health experiences, a team-based learning culture, and a legacy of community engagement.

DOCTOR OF MEDICINE DEGREE PROGRAM

YEARS 1 & 2

MEDICAL SCIENCES: SEMESTERS 1-5 Sint Maarten or the United Kingdom*

Students begin their journey to become physicians on AUC's state-of-the-art medical sciences campus in Sint Maarten or via our U.K. Track program site at the University of Central Lancashire in Preston, England, where they complete coursework aimed at helping them master medical knowledge while learning to integrate it with clinical practice. Students' clinical skills training begins in semester one and builds in each subsequent semester using case-based learning, standardized patients and high-fidelity simulation. Students learn through a variety of teaching formats including lecture, small-group sessions and laboratory activities.

* The U.K. track option is only available to eligible Non-U.S. Citizens.

YEARS 3 & 4

CLINICAL SCIENCES: SEMESTERS 6-9.5 United States and United Kingdom

During the clinical portion of the MD program, students perform as an active member of a team comprised of students, residents and attending physicians. Under supervision, clinical students perform histories and physicals, evaluate laboratory data, analyze information to diagnose patient cases and undertake limited procedures. Clerkships are completed in clinical settings in the United States and United Kingdom, and student assessment is geared to preparing students to master the 13 entrustable professional activities that all medical students should be able to perform on the first day of residency training.

STUDENT PROFILE*

PERCENTAGE OF ENROLLED FULL-TIME STUDENTS

RACE/ETHNICITY AUC

Hispanic	13%
Asian	25%
Black or African American	14%
White	40%
Two or more races	1%
Race/Ethnicity unknown	7%

* Enrollment data for 2020-2021 Academic Year.

INTERNATIONALLY RECOGNIZED & ACCREDITED PROGRAM

AUC School of Medicine is accredited by the Accreditation Commission on Colleges of Medicine (ACCM, www.accredmed.org).

AUC School of Medicine is recognized by the U.K.'s General Medical Council (GMC).+ AUC School of Medicine graduates are automatically eligible to apply to take the PLAB (Professional and Assessment Board) test and apply for GMC registration without requiring an individual assessment. This automatic institutional recognition gives AUC graduates a clear path to pursue a residency position in the U.K. and makes them eligible to apply for U.K. licensure.

+ Effective for students who started in September 1, 2019 or later. Students who started AUC prior to September 1, 2019 can apply to take the PLAB test and apply for GMC registration once the GMC has completed an individual assessment.

STUDENT LIFE

AUC has over 25 student organizations on our Sint Maarten campus that enable students to connect socially and professionally around topics such as medical specialties, shared cultural backgrounds and other topics that connect students' academic learning with their personal interests.
